

I just wanted you to know how much K-love has helped in times of trouble and sorrow, joy. I am sure that it is loved in my community because the station is supported by listeners in this area. If K-love was to be displaced I truly think that you will receive a lot of letters imputting the displeasure we have in not being able to receive our beloved station. I truly believe that K-love is a tool for the public because of the counseling that is offered and the deep love of the God we as Christians serve. This station is a blessing to our souls. Thank you and I pray that you will not take our station off.
